ORGANIZATION

OF THE

CITY GOVERNMENT, JANUARY 6, 1919.

The meeting was called to order in the Opera House, by Mayor Leach, at 7.45 o'clock in the evening.

The oath of office was administered by City Clerk Goss to Mayor elect Edward G. Leach and Councilmen elect Harold A. Benson of Ward One, Docite J. Rousseau, of Ward Two, D. Dunbar Seamans of Ward Three.

Prayer was offered by Rev. John E. Finen.

Mayor Leach gave the following address:

Mayor Leach's Inaugural.

The record of our Country for the year 1918 will take its place in History as the most wonderful and far-reaching in its benefit to mankind of any that it has been our privilege to be a part of. Instead of a Nation, with a reputation among foreign powers of being so devoted to Peace and the making of money that we would not interfere in foreign wars no matter how righteous the principles at stake, we have come to be looked upon by all of Europe as having entered the war with no selfish motive or interest and asking no recompense except to make the world hereafter safe for all people desiring Freedom. We are generally conceded to have been the decisive factor in the great World War and our soldiers without previous military experience have demonstrated their superiority over the trained soldiers of the most powerful army engaged in the war. And when the fighting ceases all countries look to us to give them food to prevent starvation and hasten to plead for our good offices to help secure them in their new-found liberty.

Few of us, one year ago, dreamed that such results could be accomplished in one short year.

It has been made possible of accomplishment only by the united self-sacrificing, patriotic spirit of our entire people. In all this work for the prosecution of the war, I am glad to say, our citizens have always been found in the front rank.

Our fathers, sons and brothers have answered their country's call for the fittest, without faltering. Not one has shown a yellow streak and attempted to evade the call.

We have answered every call for financial help by going handsomely over the top in each case.

Our women through the Red Cross and other organizations have labored unceasingly to furnish all comforts possible to the boys carrying the guns, many having volunteered to give personal services as nurses.

While we who have remained at home will always feel a satisfaction in recalling any service we may have rendered, let us ever feel gratitude towards those of us who were selected for the most dangerous tasks and risked their lives for the cause of Freedom. Let us feel the same obligation hereafter for the boys in khaki that we have always in years past had for the boys in blue.

Their names should be made a permanent record in the archives of our city and a suitable tablet hereafter erected to their memory. I recommend that a list of all soldiers who went from Franklin be printed in this or next year's city report with their services and a bound copy be given to each or to his nearest relative if he is deceased. If the Council approve such action, I would have a committee appointed to gather the necessary facts as to service and supervise the printing of the lists. At some future time when we can be sure the list is complete, I would recommend that a tablet be erected in the City Hall or the adjacent grounds with their names and service engraved thereon.

When the returned soldiers shall have formed an organization similar to the Grand Army, I would endeavor to make some arrangement with the Grand Army so they could have joint use of the Memorial Hall, heretofore used by the Grand Army in the City Hall building. It

may not be generally known that this building was to be known as Memorial Hall when erected and a special hall provided for the accommodation of our Civil War veterans as a more suitable memorial than a Soldiers' Monument. They have gathered there many relics of the Civil War, very few of them remain with us—and hardly enough, I fear, to fill the offices provided by the laws of the order. I am sure that some arrangement could be made with the Grand Army so our soldiers in this war could either become members of the Grand Army or if a new organization is more desired, that a joint use could be made of this Hall and the accommodations connected. I feel sure the Council will join with me in granting the free use of these accommodations to any such organization under any arrangement satisfactory to the Grand Army.

We owe an additional duty to our returning soldiers. To render such aid as is possible in providing them with remunerative employment. Let us not forget that they have not only risked their lives for us but that while doing so, those who have filled their places have in many cases received weekly wages equal to the soldiers' monthly wages.

I believe our employers of labor in Franklin are patriotic enough to give back his job to every returning soldier who wants it and that he will be notified to that effect before he can ask for it. I trust also that every man who filled a soldier's position when he was called to service will offer the returned soldier to resign in his favor. So far as city employment is involved, I recommend that preference be given in all departments to the returned soldier when competent to fill the position.

There is another matter in which it seems to me that courtesy of the soldier demands the attention of our representatives to the Legislature. I refer to the proposed amendments to the Federal Constitution regarding Prohibition and Woman Suffrage. The question involved is not whether we shall have Prohibition and Woman's Suffrage in this State, but whether the State shall be deprived of the power to decide these questions for itself. We already have Prohibition in this State which has been so effectually enforced in this city that the State Officer for its enforcement has sent a congratulatory note to our

City Marshal. Woman's Suffrage has been repeatedly defeated in our Legislature and can be secured now in this State without this amendment to the Federal Constitution.

It would be difficult to raise two questions that would interest our soldiers more than these; one materially reduces the power of his vote, the other takes away from many, much of the social enjoyment of life.

These questions should be submitted to vote of the people at the next general election. Action by the Legislature does not give a fair expression of the people of the State. The Constitution provides for equality of representation, yet the Statute which gives one Representative to towns of 600 population and 100 for each succeeding representative results in giving the voter in small towns double the voting power of voters in city wards and large towns.

To illustrate: The population of the towns of Hill, Salisbury, Webster and Dunbarton is less than Ward 2 or 3 in Franklin. Yet these towns have four votes on these questions and Ward 2—with more population has but 2. Again the above towns with Canterbury and Newbury have less population than Ward 7 Concord. Yet these six towns and six votes in the Legislature and Ward 7—with more population only 3. It was only through this inequality of representation that the license law was repealed at the last Session.

Since this war was waged to make the world safe for Democracy, why not begin by giving those who have made it safe, a chance to vote on vital questions like this and to vote in such a way that every soldier's vote shall count as much, at least, as the slacker's, who remained at home and did nothing?

The effect of the war has been felt during the year in city affairs mostly in a considerable increase in the cost of labor and all supplies and in the expenses incident to food production, the amount of which I have not had time to compute as the same will appear in the city report. The year will be long remembered as one in which labor received by a large per cent the highest wage ever paid. It was my first idea to postpone the work on the Andover State road on account of the high cost of labor and ma-

terials. The State Highway Department was so urgent to have the work done and the condition of the road so bad, the Council decided to go ahead. In this work the State paid one-half the expense. This being a trunk line from Franklin to Lebanon, the State is anxious to complete it as quickly as possible and as they pay one-half the expense, I trust we may continue the work to some extent the coming year. How much we should do should depend in part what the town of Andover will do. Her citizens use the road as much as ours, and they did nothing in their town last year, but if we continue work on this line, Andover should construct a piece in their town. The part completed by us extends from the Carr bridge to some 300 feet beyond the under pass which gives a good state road to Webster lake. We have also completed the last link in the State road to Hill. This road has been kept as good during the year as any of our State roads in this vicinity.

The State Highway Department have suggested to me that they plan the coming year to rebuild the Tilton road from the top of Willow Hill to Tilton village, 18 feet wide, of the same material as our new Central street road, at an estimated cost of \$45,000. Of this amount they expect to get \$15,000 from the United States and the State and Town of Tilton to pay the balance if we will appropriate \$3,000. I have informed them that I would recommend favorable action to the council on such a proposition, if made. The report will show an over payment on the highway appropriation. This is accounted for by the purchase of two trucks, pair of horses and car of tar or oil, on hand and unused. This department has felt the high cost of labor more than any other.

The change to no license on July 1, has been felt mostly in the loss of about \$5,000 revenue, formerly received from licenses. A material reduction will have to come this year in our valuation from loss of liquor stocks in trade, and decrease in valuation of real estate caused by loss of, or large decrease in rents. The loss of value in hotel property is most marked. One of our hotels has been wholly closed since Aug. 1, and the owner unable to sell or lease; another, the owner gave up to the mortgagee, sacrificing about \$5,000 from the price paid a year

before, and in the third, the dining room has been closed until Jan. 1, the proprietor having been trying to sell his lease without success. The loss from some dozen men being thrown out of business has not been felt so much on account of the scarcity of labor and the starting up of the box shop at about this time, employing an equal amount of help. The tendency of high prices of labor increasing the cost of repairs, without a corresponding increase of rents, has been to depress the values of real estate generally. I doubt if the assessor will be able to keep up the valuation to that of last year. This means a loss of revenue of course on the same rate of taxation. We should bear this in mind in making appropriations.

The past year will also be long remembered for the influenza epidemic which was the most fatal in results of any that I can recall, the fatalities exceeding the ratio of loss of life of those engaged in actual warfare. This was made worse by the absence of three of our physicians in the army.

This has considerably increased the expenses of the year, how much I am unable at present to state. The promptness with which an additional physician from outside was summoned and the Hotel taken over as an additional hospital, I have no doubt saved many lives. Great credit is due to the physicians, the Red Cross, the volunteers, nurses and assistants, and to those who furnished food and help, without charge, many of them risking their lives in the work. In behalf of the City of Franklin I wish to extend my sincere thanks to all who participated in this work and have made a record for Franklin in the handling of this epidemic that compares favorably with any city or town in the state.

For several years the city has paid \$180 per year for a dump. This is the interest at 4 per cent. on \$4,500. The owners asked the council to raise the price to \$25 per month. The Council believed it good business to buy several acres of swamp mostly covered with water for the sum of \$100 on which was wood worth \$50, on the Andover road, just above the outlet of the Lake and below the underpass. The idea was to redrain this land and get rid of a bad mosquito nest; covering the refuse with soil so that eventually it would have the same appearance

as the driveway around the skating pond at Odell Park.

A very few citizens have expressed disapproval on account of its probably unsightly appearance. This objection is one that can be easily remedied and I believe the Council would be disposed to keep it, especially during the months of summer travel, in such condition that there could be no reasonable cause of complaint.

I know of no occasion to make special reference to any of the departments as their transactions will fully appear in the City Report.

Unless some unforeseen expense shall arise, I trust we may do as well the coming year.

During the year the Council has been deprived by death of two of its most valued members, John Oscar Poor, and Henry Roulx. Each had, during their service, acted with fidelity to their trust and shown themselves to be well worthy of the trust placed upon them by their constituents. Their memory has been perpetuated with the regrets of their fellow members at their loss by suitable resolutions placed upon our records.

I congratulate the Council on the harmony that has existed in our deliberations during the year and the evidence displayed by each of you that you have acted faithfully and according to your best judgment in all matters coming before you. I feel sure the same conditions will continue in our deliberations for the coming year.

To the citizens of Franklin I wish to extend my heartfelt thanks for the expression of your continued confidence as shown by my unanimous nomination by both political parties for a second term as your Mayor and your election of me by a very satisfactory vote.

It is my hope that my action as Mayor, the coming year may be equally satisfactory. To such a result I pledge my best efforts.

CITY GOVERNMENT.

Organized January 6, 1919.

CITY COUNCIL

Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

EDWARD G. LEACH.

Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term Expires.
<i>Ward 1</i> —HERRICK AIKEN	January 5, 1920
THOMAS L. RILEY	January 3, 1921
HAROLD L. BENSON	January 2, 1922
<i>Ward 2</i> —ARTHUR L. EDMUNDS	January 5, 1920
FRANCIS T. DOUPHINETT.	January 3, 1921
DOCITE J. ROUSSEAU	January 2, 1922
<i>Ward 3</i> —JOHN W. GERRY	January 5, 1920
WILLIAM S. STEWART	January 3, 1921
D. DUNBAR SEAMANS	January 2, 1922

Standing Committees of the City Council, 1919.

HIGHWAYS—STEWART, BENSON, EDMUNDS.

SEWERS—ROUSSEAU, RILEY, BENSON.

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

To the Mayor and City Council of Franklin:

I herewith submit my report as Highway Commissioner for the year 1919:

The past year proved to be the most difficult of any in my experience to keep highways in repair.

Frosts coming out of the ground in the early Spring did a great deal of damage to all roads, especially to those constructed of macadam.

Heavy rains caused serious and expensive washouts on Smith hill, Sanborn hill, Winnipiseogee street. Cross Road and Sanborn road, early in the season, and during the months of September and October all that had been accomplished by repairs was more than overcome by almost continuous rains.

The following is an itemized account of work done during the year.

On the Merrimack Valley Boulevard from the Boscawen line north, all curves were banked with crushed stone and bound with Standard binder. 300 feet of the roadway was picked up, graded and bound with Standard binder. The entire distance from the Boscawen line to the Kenrick farm, except the Orphans' Home Road, so called, the roadway was spiked up, graded, rolled and treated with two coats of road oil, and sand.

South Main St. from Anderson Ave. to Depot St., was spiked up, redressed with crushed stone. From the Congregational Church to the Junction of Main and Central Streets the roadway was spiked up and redressed with crushed stone.

From the Kenrick residence to the road north of the residence of Wm. H. Nelson, a distance of about 10700

feet, the roadway was covered with Tarvia B and sand.

Webster St., from North Main St. to Summit St., a distance of 900 feet was picked up and redressed with stone. Continuing on Webster St., clay pockets of a total length of about 200 feet, were excavated, filled with coarse field stone and covered with crushed stone. The entire roadway from No. Main street to the Carr bridge, a distance of about 5000 feet was covered with Tarvia B and sand.

450 feet in length of the Cheney Hill road was spiked up and redressed with crushed stone, and Cheney street from Bow St. to Glenwood Avenue was covered with Tarvia B and sand.

Smith St. was spiked up, redressed with stone and treated with Tarvia B and sand.

The following streets were covered with Tarvia B and sand.

Memorial Street.

River St. from School St. to W. High St.

Franklin St. from Central St. to Winnipiseogee St., about 1800 feet.

Prospect St. from Central to Auburn streets a distance of 1800 feet.

Beech St. from Prospect St. to Elm Avenue.

Central St. from Sanborn St. to the Tilton town line, about 5200 feet.

Franklin St. from Central to School streets was spiked up and redressed with crushed stone.

Prospect St. from Central St. to Spring St. was spiked up and redressed with crushed rock, and Central St. from Sanborn bridge to Clark St. was similarly repaired.

BRIDGES.

Sanborn bridge was newly planked with 3 inch hemlock, covered with a layer of 1 inch boards upon which a coat of concrete was applied.

The Daniell bridge was newly planked with 2 inch hemlock.

Both the Daniell and Sanborn bridges were painted.

One half of the Needle Shop bridge was replanked and new stringers installed.

Two bridges near the Webster Birthplace, the Sucker

Brook bridge and the bridge on the Bennett road were practically rebuilt.

TRUNK LINE CONSTRUCTION, ANDOVER ROAD.

About 3200 feet in length and 21 feet in width of the roadway, is completed, and all culverts and buttresses are constructed. 1200 feet of the balance of the road has been covered with the first coat of gravel and the remaining 600 feet is graded and ready to be covered with gravel, clay and sand.

JAMES C. NOWELL, Commissioner.

Auto Trucks, Horses, Carts, Tools, etc., in Highway Department as Estimated December 31, 1919.

1 G. M. C. Auto Truck.	\$2,000 00

FIRE DEPARTMENT.

ENGINEER'S REPORT.

The following report from Dec. 16, 1918 to Dec. 31, 1919, is submitted: The manual force consists of Chief Harry E. Colby and two assistants, James W. Huntoon and John E. Cunningham. The Daniel Webster Steamer Company, 15 men, Edward Wheeler, Captain. The Hook and Ladder Company No. 1, 15 men, Amedos Rousseau, Captain. Hose Company No. 1, South Main street, 10 men, Ned Flanders, Captain.

Location of Apparatus.

Hose Company No. 1, South Main Street.

One one-horse hose wagon with swinging harness.
One one-horse sled.
One 30-foot ladder.
One 25-foot ladder, 500 feet 2½-inch hose.
One Hand Tub.

Prescott's Garage.

One automobile hose and chemical wagon, carrying eight pony fire extinguishers, 500 feet 2½-inch hose, boots, coats and hats, nozzles, axes, etc.

Carries three men besides driver, and nine men going to brush fires.

One automobile combination, hose, chemical and hook and ladder truck, carrying 950 feet of 2½-inch hose, one 40 gal. chemical tank with 200 feet ¾ in. chemical hose, and all ladders formerly carried on Seagrave Hook and Ladder Truck, also extinguishers with extra charges, hose pipes, axes, gates, relief valve, stops, spanners, wrenches, coats, hats, boots and belts for 30 men. One cellar pipe, wire cutter, tin roof cutter, ropes, 3 smoke protectors and one deluge set.

Central Fire Station.

One Amoskeag steam fire engine with swinging harness. out of commission.

One auto hose truck.

One two-horse Seagrave hook and ladder truck, equipped with swinging harness.

There is at the Central Fire Station 1,250 feet of 2½-inch hose in good condition, also 800 feet of leaky hose that could be used in case of a big fire.

Hose 3, Central Street, Opposite Paper Mill B.

One hand reel with pipes, wrenches, spanners and 400 feet 2½-inch hose.

Hose 4, Head of Elm Avenue.

One hand reel with pipes, wrenches, axes, spanners, 400 feet 2½-inch hose.

One two wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15-foot ladder.

Hose 5, Pearl Street, Near Park Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

Hose 6, Sturtevant Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

There is also one 55-foot extension ladder at the city stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are in the following places: City Hall 4, Franklin Passenger Station 1

Recommendations.

We recommend for the year 1920, the purchase of new hose, and additional fire alarm boxes.

It is estimated it will cost \$2,000 to repair Steamer. We would recommend the purchase of other apparatus to take its place.

JOHN E. CUNNINGHAM,

Clerk of Engineers.

By A. E. J.

Regulations of the Franklin Fire Department.

Adopted December 20, 1909.

Section 1. The fire department of the City of Franklin, shall be composed of a chief engineer, first assistant engineer, second assistant engineer, third assistant engineer, fourth assistant engineer, and a superintendent of fire alarms, who shall each be appointed by the city council; one steamer and hose company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.

Section 2. The chief engineer and four assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.

Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes his oath of office.

Section 4. The City Council, for cause, after hearing, may remove from office the chief engineer or any assistant engineer.

Chief Engineer.

Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.

Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.

Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.

Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have the power to perform the duties of the chief engineer.

Board of Engineers.

Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.

Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.

Article 2. They may from time to time make and enforce such regulations for the government of the department as they may deem proper.

Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council

and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.

(a) Penalties not exceeding ten dollars for each offence may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.

Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers shall become a member of the company.

Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by a majority vote, a clerk of the board of engineers, a captain, a lieutenant and a clerk for each company and an engineer, assistant engineer and stoker of the steamer, each of whom shall hold office until his successor is elected.

Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.

Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere to be extinguished or removed.

Superintendent of Fire Alarm.

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm who shall be elected by the Council.

Committee on Fire Department.

Section 8. The committee on fire department of the City Council, with the approval of the chief engineer and subject to direction by the Council shall purchase all supplies in connection with the department.

Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted December 5 and 19, 1910.

Amended May 20, 1918.

1. That the salary of the chief engineer be \$150 a year and 75 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.

2. That the number of assistant engineers be reduced to two and that the salaries of each shall be \$50 per year and 75 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of the assistant engineer at a proportionate salary.

3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.

4. That the members of the various companies shall each receive a salary of \$25 per year and 50 cents per hour for all services.

5. That the engineer of the steamer shall receive \$1.00 per hour for actual service at fires, 50 cents per hour for practice and for cleaning and repairing.

6. That the superintendent of fire alarm shall attend to all repairs on the fire alarm system. Under this head it is understood that he shall at all times keep the line clear, and for any work in this connection, including the cutting of trees or branches, he shall not receive any extra compensation. It is further understood that in instances that tappers are changed, it shall not be considered extra work except where new wiring is called for. That he shall attend to the winding of all the clocks and the tappers and he shall see to the procuring of supplies for the whole system, including the storage batteries at the Franklin Light & Power station, subject to the approval of the chief engineer and Fire Department Committee.

BOARD OF HEALTH.

Our department has continued its policies of previous years and the results have shown that familiarity with the work makes us more efficient. In comparing our city with others of like size we find that none excell and few measure up to our standard. Some credit for this we are forced to accept but the greater part belongs to the majority of the people who support us with their approval, and make us fearless to perform our duties.

A noticeable harmony and co-operation at City Hall is gratifying.

The mortality of our city—much less than 1918—shows deaths due to natural causes in most cases, and the absence of epidemics, industrial, and diseases due to carelessness are on the wane. More infants are passing through the dangerous period of life each year. We attribute this to a higher intelligence of the people and the added interest the medical profession is taking.

Our water supply is in excellent condition and we have the latest appliances for safeguarding its purity. Any necessity for boiling will be promptly advertised from our office.

The sanitary conditions of our schools are satisfactory and our order for teachers to send home children indisposed has worked out to the advantage of all.

We have recently inspected the Pastime Theatre and found it well equipped with a fire-proof booth, several fire exits and a modern ventilating system.

The milk supply is good, as regards cleanliness and its quality.

Since inaugurating the system of collecting rubbish we find there is some dissatisfaction about the irregularity of collections. We are trying to remedy this and hope that it will soon be on a regular day schedule.

We have had about the usual number of contagious diseases this year with a small death rate.

The advantage of an isolation department connected with the City Hospital, becomes more evident each year.

We believe that our city should have a sanitary inspector to investigate complaints and inspect plumbing.

We approve of the idea of serving hot lunches to the

students at the schools who are unable to be at home at noon time during the cold season.

F. A. BAKEMAN,
IRVING V. GOSS,
HECTOR MORIN,

Board of Health.

ODELL MEMORIAL ARCH FUND.

Vote passed April 7, 1913,

That, The City of Franklin hereby accepts the sum of two thousand dollars given to said city March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund", and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four per cent. interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park.

It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved.

W. W. EDWARDS, Mayor.

CITY SOLICITOR'S REPORT.

To the City Council of the City of Franklin:

In compliance with your suggestion at the time of my election I have served as City Solicitor the past year without pay. Very little time has been required to perform the duties of Solicitor which would not have been required to be given as Mayor to the same matters.

The suit against the City by P. L. Kennedy was settled by a compromise, with the approval of the former Solicitor, as appears elsewhere in the city report.

The only action in Court in which the city has been interested during the year is a petition by the Int. Paper Co., for a partial abatement of taxes assessed on the Cross Mill Dam and Water rights connected therewith.

This was due to the Town of Northfield increasing the valuation of said Company on what they claimed as in their town about \$40,000 00 above what it had been before.

This petition was entered in the April term of the Superior Court for this county. Our assessors claimed the valuation made in 1918 was none too high.

The importance of the case seemed to warrant the employment of a disinterested expert, not only as to the value of this particular piece of property but as to all their real estate and water rights, within the city. In order to be prepared to show this company's property was taxed no higher than other manufacturing property in the city it seemed best to have an appraisal of all real estate and machinery in the city used in manufacturing. The results showed a very large increase in the valuation of this class of property which yielded the city an increase of over \$15,000 00 in taxes. All the persons and corporations whose valuation was raised paid their taxes without protest before Dec.1, except the company which has the suit pending. They paying under protest so as not to prejudice the pending suit. I make this explanation so the records may show why our valuation increased to such an extent during the year 1919.

EDWARD G. LEACH.

CEMETERY TRUST FUNDS.

The following funds have been placed in the care of the Trustees of Trust Funds for the City of Franklin in trust, the income to be expended in the care of various lots in cemeteries within the city agreeable to Chapter 51 of the Public Statutes, and a resolution of the city council adopted September 3, 1900:

MARY J. COLBY FUND.

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund:

Be it Resolved, That the City of Franklin, N. H., in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., and the sum of twenty-five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks, to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H., to be known as the Mary J. Colby Fund; and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved, W. W. EDWARDS, *Mayor*.

Passed September 8, 1913.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

PARK COMMISSION.

Report of the Treasurer.

Our inter-city Playground, Odell Park, has this year again been "functionizing" normally. As soon as the lagoon was unfettered from its icy mail, the care taker, Mr. Morrison, busied himself, early and late, in his tire-

Odell Park. Arch and Entrance.

less task of tidying-up, reshaping, and resurfacing the grounds.

The familiar, frequently repaired, wooden bleachers were removed early in the season, as a measure of safety, but it was not until August that the new cement bleachers, with heavy planked seats were completed and the base-ball diamond was vastly improved by its "skin"

coat,—two-fifths loam and three-fifths clay,— at an expense of several hundred dollars, but with the unqualified approval of all devotees of the national game.

In June, the Chautauqua Assembly again pitched its tent here, and, while the pecuniary emoluments were hardly satisfactory to the fifty "guarantors", the week's program was extremely interesting and instructive. Toward the end of the season, a street carnival, with its numerous "concessions", succeeded in capturing from the free-and-easy prodigality of a sport-loving public, a

The Drive.

sum far in excess of its license-fee, its war-tax, and its ground rentals.

In the Spring, a new pig was installed in the sty, camouflaged in bottle-green pigments,—where the war-pig of last year thrived in disgruntled porcine democracy until he received his final quietus. A flock of hens,—Rhode Island Reds—also helped to reduce the high cost of living, and, throughout the Summer, fifteen White Pekin ducks disported themselves in the lagoon, to the admiration of the public.

Could the disembodied spirits of Pontauhum (the Trapper) and Ponbakin (the Arrowmaker),—"young, and very intelligent, born and bred all their days in

these parts, and familiar with the great Lake and the Rivers", have revisited this Wabanaki Village site, as in 1652, it is doubtful if they could have recognized it in this year of grace 1919!

The river no longer murmurs to the cadence of the forest. Enriched by its contact with the civilization of Laconia and Tilton, polluted and discolored by the manufacturing waste outflowing from the tailraces of our own mills, it no longer permits the shad to migrate up to the limpid azure waters of the "Aqueductan".

Ducks in the Lagoon.

This result is one of the perils of high civilization; and yet, fortunately, this valuable heritage of our water-front was secured for us for a Park Playground before it was lost forever.

On the opposite side of the stream we have a good illustration of how a growing town is prone to turn its back upon its water-front, so to speak. "Napoleon turned aside his great Simplon Road to save a tree which Caesar once had mentioned". Someday perhaps our ideas of scenic beauty will be sufficiently ripened so that we shall not view undismayed the felling of a stately elm into the river, in order that space may be made on the river-bank for an overhanging garage.

This year more than \$150 has been expended in water-proofing the cement cellar, and in "granitizing" the basement exterior of the caretaker's Lodge, thereby rendering it more attractive to the eye, as well as more

Caretaker's Cottage.

desirable as a residential abode. With its background of green, the Lodge is a most charming addition to the Park, and as useful as it is beautiful.

Daniell Park.

The sanitary conditions of the old Farm-house have been greatly bettered by the installation of a toilet room together with a septic sewage tank. These much needed improvements cost considerably more than \$200, but the tenants cheerfully agreed to pay \$2 a month additional rental in consideration of these betterments. On the sloping hillsides around the house, the pine plantations have sent up another growth of 7,000 "leaders" sky ward,—an omen of the days when they will hold high bacchanalian with the winds which shall play among their forest branches.

Webster Lake Park.

In September, in consideration of the conveyance to him, in fee, of a reserved 15 ft. pass-way to the Lake, Mr. Ralph H. Sherburne deeded to the city a trapezoid shore-strip: "Beginning at the center of a culvert on Webster Ave., thence South-westerly on land of E. G. Leach to Webster Lake; thence Southerly by said Lake 16 ft. to a maple tree; thence Easterly about 80 ft. to Webster Ave., and a maple tree; thence Northerly by said Ave. to the bound begun at." This conveyance will give the public access to the Lake, as heretofore, and will insure to the owners of lots on the East of the Avenue, an unobstructed shore-line view. The Treasurer's Report shows a credit of \$225 received from Mr. C. A. Williams for the sale of three small lots located on the East of Webster Ave., opposite his summer-home. In October, the sum of \$2,000 was received from Mr. and Mrs. Geo. L. Hancock, for about seven acres of woodland opposite their Lake estate. In conveying this property, it should be borne in mind that your Commission did not sell the landscape; to that a warranty-deed gives no title. It is the intention of the owners to preserve this as a Park annex to their estate. The public can still look upon and enjoy it as though owning it in fee simple. The \$2,000 has been placed in the Franklin Savings Bank, to the credit of the "bath-house" fund, which, as of October 1, amounted to \$3,030,—a sum somewhat larger than that offered the Town for the whole 120 acres of the "Town Farm", in 1892.

Respectfully submitted,

FRANK PROCTOR,

Treasurer, Park Commission.

FRANKLIN PUBLIC LIBRARY.

Franklin, Jan. 24, 1920.

To the Mayor and Members of the City Council:

The reports of the Librarian and Treasurer of the Public Library for the year ending Dec. 31, 1919 are herewith respectfully submitted to you. These reports are worthy of your careful attention and consideration.

The deserving support which the city government has given to the public library has always been substantially reflected in the good work the institution is doing in our community.

The finances of the library at this time are in a healthy state but an institution of this sort can profitably use all the funds that might be placed at its disposal. Our library claims the attention of all citizens who are philanthropically inclined.

The physical conditions of the library have been maintained during its existence. Some extraordinary repairs have had to be made and the usual repairs upon a building of its kind have been attended to.

A library represents a community centre as no other public institution can and it is the desire of the trustees that every inhabitant should feel that this institution is his own to use for his own good and for the benefits of future generations.

W. F. DUFFY, Chairman.
Trustees Franklin Public Library.

TREASURER'S REPORT.

To the Trustees of the Public Library:

I hand you herewith my report as treasurer for the year ending Dec. 31st, 1919. It may be noticed that the report is in somewhat different form from previous years. This is by request of the Public Library Commission as they wish uniformity in the reports. The amount indicated above as income from endowment funds \$318 64 represents only a part of the amount available as the dividends on various trust funds now in the Franklin Savings Bank are allowed to accumulate until actually needed for the purchase of books. They amount now to \$318 91. The interest from the following funds is available yearly for the purchase of books and in addition to this is added the income from fines, book rentals, rent of Library Hall, etc.

Clark Fund, \$1,000.00, invested; Duffy Fund, \$2,500.00, invested; Chapman Fund, \$2,000.00, Savings Bank; Aiken Fund, \$1,000.00, Savings Bank; Morrison Fund, \$500.00, Savings Bank; Jones Fund, \$100.00, Savings Bank; Greeley Fund, \$50.00, Savings Bank.

A sum of \$2295.46 remaining from the original construction fund is in the Savings Bank and the dividends on it are added to the book fund. The income from the above sources is sufficient to ensure a moderate yearly expenditure for new books.

LIBRARIAN'S REPORT.

To the Trustees of the Franklin Public Library:

The year 1919 has seen a return to legitimate library activities which were somewhat hampered by demands made upon the building and staff during the world war. The effect is seen in the circulation of books and magazines which increased from 30,051 in 1918 to 42,103 in 1919. The Reading Rooms have shown a larger attendance and much more reference work has been done.

The library has suffered a great deal from increased book prices. Hardly a book can be purchased now for less than a dollar and a half. The price of all supplies has increased in like manner, and as the appropriation has not increased, the number of books purchased is much smaller than would have been the case had the old prices been maintained.

Miss Mildred Peaslee returned to her duties as assistant librarian on September 1, having completed her course at the Pratt Institute Library School the previous June. The knowledge and training gained while there has been, and will continue to be of great advantage to the library.

The record of circulation and other data pertaining to administration follows;

Number of bound volumes accessioned at beginning of 1920	12,001
Number added by purchase	452
Number added by gift	40
Federal, state and town documents added.....	1
Number of volumes of magazines added by binding	16
Total	509
Number of magazines currently received	42
Number of newspapers	6
Number of volumes of non-fiction lent, Adult..	3,304
Number of volumes of non-fiction lent, Juvenile	1,256
Number of volumes of non-fiction lent, Total	4,560
Number of volumes of fiction lent, Adult.....	27,732
Number of volumes of fiction lent, Juvenile	8,936
Number of volumes of fiction lent, Total	36,668
Unbound magazines lent	875
	42,103
Number of new borrowers added during the year	332
Approximate number of active borrowers during the year	1800

RATES.

All customers are supplied through meters. The minimum charge is six dollars per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 30 cents per 100 feet; for the excess over 1,000 feet used each quarter, 20 cents per 100 feet is charged.

Upon all quarterly bills exceeding \$12.50, a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

The successful operation of a publicly owned utility rests largely in the hands of the person immediately in charge. Mr. E. L. Wallace managed the Water Department for the City for twenty-eight years. His service began while the pipes were being laid. To the duties of the office of Superintendent he gave the most careful attention. The success of the system so far has been largely, if not almost entirely, due to his conscientious devotion thereto. When his health prevented his giving to the work his close personal attention, he insisted upon withdrawing and his resignation was reluctantly accepted, taking effect March 1st. Since then, Mr. Harry E. Lyon

has been Superintendent and has been equally successful and efficient.

During the year repairs which could no longer be delayed have involved large expense. It was necessary to purchase a new motor for the Pemigewasset station. Many leaks have been repaired. The meters are reaching a stage requiring considerable expenditure for repairs. An additional chlorinator has been placed in the Bow St. station so that in case of emergency water from the Winnepesaukee river could be used with safety. The maintenance account has also been swollen by the high price of labor. If it is planned to continue payment on the investment in the plant in addition to maintenance an increase in the rates charged will be required, if the present rates for labor continue. A large leak during the year which eluded for months all efforts to locate it is also responsible for increase of the labor account.

Another season to enable such an emergency to be more economically handled a large addition should be made to the filter surface at the Pemigewasset station.

The cost of maintaining schools shows a tendency to increase each year. The increase of salaries is due largely to the fact that salaries have been paid the past year for thirty-eight weeks of teaching rather than for thirty-six weeks as has been done before. This was because of the fact that the closing of the schools in the Fall of 1918 required two additional weeks of school during the remaining two terms of the school year ending June, 1919.

The increased cost of fuel will readily account for the increased expenditure under that heading while the increased cost of transportation was due to the necessity of meeting the increased wages, grain bills and all items entering into the problem of transportation.

The State Tax is a necessary payment resulting from the passage of the Educational Bill by the last Legislature which requires a tax of two dollars for each child enrolled during the year as well as from those enrolled in evening schools. The same bill took from us for general educational purposes the amount usually received from the Literary Fund.

As the thoughtful reader compares the cost of the schools with that of ten or twenty years ago he might question if there was extravagance in expenditures and if the present schools are better than those which he attended.

The answer to the last question is that the schools of twenty years ago are not good enough today. Almost every tax payer would object if we were to return to the conditions of the last generation. More is being demanded of our schools today; in better buildings and equipment; in more practical courses; in more attention to the health of the pupils, and more expert teachers are demanded, all of which necessitate increased expenditures. In answer to the first question it is the desire and attempt of the school board to get the honest value of every dollar expended for school purposes.

School Work.

The work of the schools has progressed much more satisfactorily than that of a year ago. This has been because of better attendance due to the absence of epidemics and to absence of severe weather and more especially to the fact of not losing our best teachers who though having repeatedly been offered positions at greatly increased salaries chose to remain with us. I am glad that recent action by the Board on the matter of salaries gives to these teachers a remuneration more in keeping with the responsibility of their work and as a matter of justice with that paid in mercantile and commercial life.

The conditions reported in previous reports as to the

lack of sufficient accommodations in the high school are much more serious now. The opening of the commercial course in September obliged the use of the room formerly used as a kindergarten, while a coat room, poorly lighted and ventilated and with very cramped quarters had to be used as a room for typewriting. Suitable accommodations for the kindergarten could not be found and the experiment was tried of furnishing transportation for the pupils thus displaced to the Nesmith kindergarten but not receiving the cooperation of the parents was later discontinued.

The value of the kindergarten is being more and more appreciated and its extension is recommended by all educators today. Not only does the kindergarten child gain in the power of observation, of expression through the plays and games, in the forming of desirable attitudes and habits but he the more readily falls into the routine of regular school work. One session is considered far more desirable for the average child at the beginning of his school life than two sessions.

The use of the room now used for the commercial work necessitates the stopping of pupils for wraps and rubbers before passing from one building to another with a loss of from five to ten minutes between each period with a total loss of forty-five minutes each day on an average. It has been suggested that accommodations for this department might be provided either in the City Hall or in Library Hall, but this would mean an even greater loss of time owing to the greater distance.

The former kindergarten should be re-established at the earliest possible date and I would recommend that the City Council be urged to take action by authorizing the erection of a four room addition to the Parker C. Hancock building permitting the moving of some of the grades from the Falls school to these new rooms, the moving of the commercial department to the rooms thus vacated and the re-establishment of the kindergarten.

Evening Schools.

Although the district has maintained evening schools in the past to which membership and attendance was wholly optional, the Educational Bill of 1919 required

the maintenance of such a school and required the attendance of all persons between the ages of sixteen and twenty-one who were unable to read and speak English understandingly. The State Board has decided that at least sixty sessions of the evening school shall be held this year and that no person required to attend the school shall be absent more than five sessions without losing the certificate permitting his employment.

An examination of the several mills found thirty minors who were required to attend the school. Others came voluntarily and the offering of a course in stenography, typewriting and bookkeeping attracted others so that for the last term we had a total registration of eighty-five with an average attendance of sixty-five.

That these schools produce results is noted in the pupils in their constantly increasing ease of oral expression, their comprehension of the printed page and their increasing power to write and spell. Every opportunity to teach the principles of American government and American institutions is grasped.

Junior High School.

In September departmental teaching was begun in the seventh and eighth grades thus beginning a simple form of the Junior High School. This permits the specialization by the teachers in those studies most enjoyed and consequently best taught. The organization of the work works out advantageously and in every way the results are more satisfactory than before. We may hope to extend this line of work until we finally have an approved Junior High School.

Repairs.

Only the most pressing repairs were made the past year owing to the scarcity and high cost of labor and stock. The custom of former years of fixing up two or three rooms each year was however followed. In the high school yard a large amount of filling was done and a new concrete walk laid greatly adding to the looks of the yard and the comfort of the pupils. The wooden steps were also replaced by concrete steps at each building.

The coming year a thorough overhauling of the plumbing should be made to stop all unnecessary waste of water. The painting of the Nesmith and the Webster Lake buildings which has been put off for several years should be done and the old style desks and seats should be replaced by seats and desks adjustable to the pupil in at least one room the coming year. Especially would I urge that some arrangement be made with the proper authorities whereby more heat shall be furnished for the High and Hancock buildings during the coldest nights, thus doing away with the frequent and costly bills for frozen and burst pipes which we now have as well as making the rooms more comfortable for evening school work and more comfortable at the opening of school in the morning.

New Scholarship.

Through the generosity of Mr. Warren F. Daniell, a scholarship in Simmons College has been created and is to be given annually to a graduate from the Franklin High School who shall be recommended therefor by the Board of Education. This scholarship is being used this year by Miss Merriam Downes, who was graduated last June.

In conclusion, I would call your attention to the report of the Headmaster of the High School, the Program of Studies offered in the school and the reports of the several supervisors and instructors especially to that of the Commercial Department. This department will, I believe, prove one of our strongest courses and will easily prove its practical value in the community.

I wish to express my appreciation of the conscientious work of the teachers during the past year and of the support given me by the Board of Education.

Respectfully submitted,

GEORGE A. KEITH.

HIGH SCHOOL REPORT.

Mr. George A. Keith, Superintendent of Schools:

The past year has been marked by one of the greatest changes ever made in the courses of the Franklin High School. This was caused by the introduction of type-writing and shorthand. Other departments have been introduced from time to time, such as the Manual Training and the Domestic Arts departments, but the new Commercial studies, in connection with these others, have made it possible to rearrange the choice of studies so that the school is now really different from what it has ever been in the past.

For the first time, pupils are not all required to take algebra in their first year, nor geometry in their second year. It is expected that, as a result, there will be fewer failures in the school, because these two studies have always proved difficult for some who have been obliged to take them.

Since there is now a wider range of choice than hitherto, parents will do well to consider carefully before their sons and daughters enter the high school what courses seem best for them. The new program of studies will be inserted as a part of this report so that it may be examined by those interested.

With reference to algebra and geometry, a few words of caution should be made; girls who plan to continue their education after the high school should make sure whether these studies are necessary for entrance credits. Otherwise they may be disappointed when it is too late. As for boys, the value for them of algebra and geometry should be thoughtfully considered. Many young men find it advisable to take correspondence courses in these subjects, after they leave school. But it is much better to take them in school as a part of the regular education.

A word of caution, also should be made with reference to the new commercial studies. Pupils should not think that they should be studied, while the other studies may be neglected without harm. The broader education a person has, the better he is likely to succeed in business positions. One should not think only of the position that can be secured immediately after graduation; but rather

of the ability that one may have to advance to better stations as years pass. A good command of language and a knowledge of history and science will prove advantageous in every position or station.

In fact, the value of education both for the individual and for our democracy, in general, has been made clearer than ever by the war. The same conditions that have shown the value of education, in general, have also shown the value of a good high school training.

By the same searching light of the war, a serious defect in our education has been seen. This comes from insufficient attention to physical training. In different parts of the country measures have already been taken to remedy this evil. The time should not be far distant when a trained person has in charge the physical education of every child, with a suitable room for physical exercises. Hereafter, whenever a school building is constructed, the physical needs should be planned for as much as for any other branch of instruction.

The school has the advantage of two scholarships. One, known as the "Daniell Scholarship," established by Mr. Jere R. Daniell, pays to the holder the tuition for the Massachusetts Institute of Technology. No one is now making use of this opportunity. The other scholarship, given by Mr. Warren F. Daniell, pays the tuition at Simmons College. Miss Merriam Downes has been awarded this scholarship.

Respectfully submitted,

HARRY PREBLE SWETT.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. Geo. A. Keith, Superintendent of Schools:

The Supervisor of Music submits the following report. Considering the fact that my work in Franklin has covered the short period from September to January it is impossible to present a long list of things accomplished.

The aim of the course at present is to produce a greater amount of individual work and increase the pupil's power to think musically. I find that the ability of thinking tone and sensing rhythm is sadly lacking and its use not only helps the pupil to sing better but makes him a better listener. The ability to listen to music understandingly is as important as performing it well.

Quite a little improvement in tone quality has been made in several classes and the process of oral and written dictation is being used to create the power to

think tone without which the printed page of music is as an unknown language. This work started in the first grade and carried systematically through each year leads to wonderful results in the higher grades. Without it the performing of more difficult music becomes an effort.

A new factor this year is the introduction of the Teachers' Manual by Dr. Hollis Dann, which outlines the work of each grade by months. Each teacher has a copy for a reference book and a guide. The work in musical dictation is taken from this supplementing the textbook already in use.

An effort has been made to introduce the bass clef earlier in the course in the seventh grade and to give practice in it so that boys entering the high school will be able to sing their parts more readily. A new set of books for this purpose is being used in the seventh and eighth grades.

Addition of books containing attractive rote song material has been made where formerly there were no printed copies of such.

I have found cordial response from the High School chorus and am planning to have this department take charge of a Community Sing later in the season. This I consider one of the results of music in the high school, namely a fondness for good music and the desire to carry it into the community. A Girls' Glee Club has been formed and one for boys will be started during the winter term. The fact that only stringed instruments are played by any students has held up the orchestra work temporarily.

It is a pleasure to find a group of teachers so interested in music, many of whom are capable performers. We have started a Teachers' Glee Club as a means of recreation and study.

In a school of this size it would seem beneficial to introduce a course in Music Appreciation, History and Theory. Doubtless this will come in time. It would add to the attractiveness of the curriculum and tend to produce a more musically informed public.

A pleasant feature of our December work was a "sing" of Christmas carols in which the pupils of the fifth, sixth, seventh and eighth grades participated making over two

hundred gathered in the high school room. This is a yearly custom in some places and I would recommend it here. It will add to the Christmas spirit and the community spirit.

During the remainder of the year we shall prepare the glee clubs for some public work and take notice of the Pilgrim Tercentenary in our music.

Respectfully submitted,

GERTRUDE VAN DOMMELE,

Supervisor of Music.

REPORT OF THE INSTRUCTOR OF THE DOMESTIC ARTS DEPARTMENT.

Mr. George A. Keith, Superintendent of Schools:

I wish to submit my second annual report of the Domestic Arts Department.

Each grade above the fifth meets for one hour each week and during that time the sixth and seventh grades sew. The eighth grade alternates cooking with sewing. The work of the sixth grade is all hand sewing while that of the seventh grade is both hand and machine sewing. This year the girls have made a variety of articles including the following: towels, napkins, pillow cases, handkerchiefs, underwear and aprons.

This year we have a four year Domestic Arts course and now every girl in the high school may take a course in Home Training. The Freshman course includes cooking and sewing. These girls meet for ten periods a week and during the Fall term canned over seventy-five pints of fruit and vegetables and fifty jars of jelly and conserve. They also served four meals. For sewing each girl has made an apron, a piece of underwear and an article for the home.

Home Nursing and Physiology has been added this year. The aim of this course is to prepare the home maker to care for the well, to meet emergencies and to

care for the sick when a professional nurse is unnecessary.

The third course, Home Organization, involves getting the home organized and in shape to be run.

During the winter term it is planned to have the girls serve hot soup or some hot stimulant at noon to those pupils who bring their lunches.

Respectfully submitted,

MARGUERITE HOPKINS.

REPORT OF THE INSTRUCTOR OF MANUAL TRAINING.

Mr. George A. Keith, Superintendent of Schools:

I herewith submit my second annual report as supervisor of the Manual Training Department.

I feel that the year just past has been one of earnest and successful endeavor in the department. All that the course requires, and to some extent more, has been accomplished in each class. With very few exceptions, each boy has done his allotted part with a display of interest and ambition. I account for this in that, in our department, boy's natural aptitude, to express himself by means of employing his hands, is allowed a great deal of freedom. Guidance and instructions are meted out to him in such a way that he is continually working out and improving his own ideas. Our aim, in this department, is to install a training that will prove beneficial in whatever career is followed out.

The high school boys, during the past year, have made plans and constructed pieces of furniture to fit into their respective homes. They have also made typewriting tables for the Commercial Department, as well as to help install the seats, and erect the black boards.

During the Spring term, last year, the second year High School Class made patterns, and were taught the fundamental principles of Pattern Making. We visited the two foundries of the city, and through the kindness of Mr. Beaupre, each boy was allowed to mold and pour a casting.

I was glad to see at the opening of school in September that the number of boys in the High School taking the course had nearly doubled over last year. In two of the grades we are over crowded and lack about four benches.

I have mentioned the need of a new machine planer and circular saw table. During the past year my attention has been called quite frequently to a power bench saw and planer which would meet the needs quite satisfactorily. The cost of these two machines is comparatively small, and they would add greatly to the efficiency of the High School course.

I take this opportunity to thank all who have extended courtesies and favors to me in connection with my work.

Respectfully submitted,

LINDOL R. WATERMAN,

Instructor of Manual Training.

REPORT OF THE SUPERVISOR OF DRAWING.

Mr. George A. Keith, Superintendent of Schools:

Considerable time is devoted to illustrative drawing of action figures with and without a background. These tell stories about little people and big ones, at home, and upon the street.

The mind pictures what it thinks, before expressing itself in any medium. There must be a mental vision first. Therefore the picture logically becomes the most direct and exact medium of expressing an idea or of symbolizing a thought.

These classes enjoy the use of a simple alphabet of lettering. They learn the difference in values of the six rainbow colors. Construction work in measuring, folding and cutting also appeals to them.

There are beautiful lines and spots of color in nature which small fingers may imitate. Children of these grades appear to get more fun to the square inch out of creative work in drawing than any others.

This is true in a lesser degree of the grammar grades

below the seventh. Above the sixth, through the high school, they have a more exacting discrimination, without a corresponding increase in patience. They are more easily discouraged with imperfect results.

In the very limited time allotted, we try not only for more perfect technique, but to gain an appreciation of simple lines, good proportion, and harmonious color.

This is a valuable asset. We hear of "Art that hunts and is hunted." We all wish that the fine arts were more hunted, and that advertising art hunted more.

Much careful work was done by these pupils which was worthy of being reproduced on blotters, calendars and for advertising.

If people would rely more upon the accepted canons of enduring beauty, and less upon that old platitude, "Of course I know nothing about art, but I know what I like," they would do well. The latter is an expensive vice which has led men to pay high prices for worthless pictures, and spend fortunes upon collections of indiscriminate trash. These were later dumped upon poor, defenseless museums.

Good taste, however, we all think we possess, like a sense of humor, but the other fellow lacks. People are realizing more, that beauty is an investment that pays, for a beautiful home is essential to the spiritual health of an American family.

Acknowledging the cooperation of all who help in this department, this is

Respectfully submitted,

ALICE PARKER KILLAM.

REPORT OF INSTRUCTOR IN THE COMMERCIAL DEPARTMENT.

Mr. George A. Keith, Superintendent of Schools:
Commercial Education.

The ideal high school commercial course has three distinct aims:

First: To offer a practical training that will induce a large number of high school students to remain in school

for a longer period. Second: To equip young people as thoroughly as possible to engage in business affairs. Third: To make the course broad enough so that the students after completing it may be able to stand upon the same plane intellectually and socially as those with classical training.

Bookkeeping.

This subject is taken up in the Freshman and Sophomore years in high school.

The Freshman classes during the first semester were taught how to journalize, post, take a trial balance and close the ledger by journal entries.

The Sophomore classes covered about the same amount of work with the exception of a few, who progressed more rapidly. These were taught to use the journal, sales book, purchase book and ledger.

Shorthand.

Shorthand is included in this course because, it not only enables young people at the very beginning of their commercial life to earn a better salary than they could hope to secure as mere beginners in any other position, but it puts them in closer touch with the business man, and this affords excellent opportunities to gain a definite knowledge of every detail of the business. It also offers every possible opportunity for young people to show their understanding of business affairs and to secure promotion to important positions much sooner than would otherwise be possible.

Shorthand has even greater value when considered from a purely educational standpoint: It compels one to think quickly and accurately; hence the more important mental training resulting directly from this study is the development of ability to concentrate the whole mind upon the work in hand. The scientific study of shorthand compels the development of greater ability to hear things accurately.

The Gregg system of shorthand which is used is commenced in the Junior year. During the first semester, the first thirteen lessons in the Manual were covered. The students acquired the ability to sound phonetically

and write accurately from dictation all words, wordsigns, phrases and sentences given in the text illustrating each principle. At the end of the first year, the student should be able to write seventy words a minute.

A special class is held in the afternoon for former high school students who did not have the opportunity of taking shorthand in their high school course. This class has completed about the same amount of work as the Junior class.

Typewriting.

The touch method of operating machines is taught throughout the course. Careful attention is paid to correct fingering, and position. The course in typewriting begins the first semester of the Junior year and runs two years. During the first semester the students become thoroughly familiar with the keyboard and by the end of the Junior year they should be able to write from twenty-five to thirty words a minute.

A larger typewriting room will be necessary, for the size of the present room will be insufficient to accommodate next year's classes. At least eight more typewriters will be needed to meet future demands. The above mentioned are absolute necessities. A school bank, while not being an necessity, would greatly improve the bookkeeping department.

Respectfully submitted,

WILLIAM F. DORAN.

SCHOOL PHYSICIAN'S REPORT.

Mr. George A. Keith, Superintendent of Schools:

I submit the following report for the school year 1918-1919.

Passed May 20, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to furnishing water for the Catholic Cemetery.

Resolved by the City Council of the City of Franklin, as follows:

That the City Council favor the furnishing water for the Catholic Cemetery free of cost, to be taken from the pipe on the Hill road, such connection to be made under the direction of the Water Commissioners.

Resolved, further, that consent is given for laying such pipe in the public highway wherever necessary.

Approved, EDWARD G. LEACH, *Mayor*.

Passed July 7, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to exempting from taxation certain property of M. J. Nevins.

Resolved by the City Council of the City of Franklin, as follows:

That Michael J. Nevins and his associates, if any, be and hereby are exempted from taxation for ten years from this date on any capital invested in the manufacture of needles and metal pressing, or similar articles, including machinery, stock in trade and additional buildings, said exemption not to apply to State or County tax or any property now taxable in Franklin, N. H.

Approved, EDWARD G. LEACH, *Mayor*.

Passed August 4, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to exempting from taxation certain property of The Milbilt Company, Inc.

Resolved by the City Council of the City of Franklin, as follows:

That whereas, The Milbilt Company, Inc., a corporation having its principal place of business in Boston, Mass., is considering leasing the real estate of Eliza T. Shepard, heretofore occupied by Veazey & Oliver in Franklin, N. H., and engaging in the manufacture of house finish, etc., now as an inducement for securing said business to locate here.

It is hereby voted to exempt said Company from taxation for a term of ten years from this date on its capital that may be invested in said business including its machinery and stock in trade, provided said exemption shall not apply to the State and County tax on the same, or to any property now taxable in said city.

Approved, EDWARD G. LEACH, Mayor.

Passed August 4, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to borrowing money for the Water Department.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer are hereby authorized to borrow for the temporary use of the Water Department, a sum not to exceed \$2,000.

Approved, EDWARD G. LEACH, Mayor.

Passed November 3, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to exemption from taxation of certain property of the Seawill Needle Company.

Resolved by the City Council of the City of Franklin, as follows:

That the Seawill Needle Company be and hereby are exempted from taxation for ten years from this date on any capital invested in the manufacture of needles, metal presses or similar articles, including machinery, stock in trade and buildings.

Said exemption not to apply to State and County tax or any property now taxable in Franklin, N. H.

Approved, EDWARD G. LEACH, Mayor.

Passed November 3, 1919.

In the year of our Lord one thousand nine hundred and nineteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin, as follows:

Whereas, the City Council on September 8, 1913 adopted a resolution directing that the Mary J. Colby fund of \$10,000 be deposited in certain Savings Banks therein named and whereas financial conditions have since changed and U. S. bonds, the safest security in the world can now be purchased at a price to net about five per cent,

Resolved, that said vote of said Council be and hereby is amended to such an extent as to authorize the withdrawal of said Trust funds from said Banks and its reinvestment in U. S. Govt. $4\frac{1}{4}$ per cent bonds and that the same be registered.

Also that the Trustees of Trust funds be further authorized to invest any other Trust funds now deposited in Banks for the benefit of the city in similar bonds.

Approved, EDWARD G. LEACH, Mayor.

Passed December 15, 1919.

ORDINANCES.

Relating to the Collection of Garbage.

In the Year of our Lord, One Thousand Nine Hundred and Sixteen.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. The collection of garbage by the highway department of the city shall be made at the times and under the conditions herein set forth, and in no other manner.

Section 2. Weekly collections will be made each Saturday starting at seven a. m. at the Daniell bridge on Central Street and continuing Easterly to the Sanborn bridge, including Smith, Canal and Memorial Streets, and Franklin Street Southerly from Central Street to Ayles Court. Commencing at ten a. m. on each Saturday, collections will be made on Main Street.

Section 3. That on the first Tuesday of each month collections will be made on Willow Hill, Bow Street, Glenwood Avenue, River Street, Terrace Street and Ward 1; on Wednesday following, collections will be made on Franklin Street and all streets Westerly to River Street, and on Myrtle, Pleasant, Oak, Orchard, Pine and Beech Streets, Highland and Elm Avenues; and on Thursday, collections will be made on Prospect Street and all streets between Prospect and Franklin Streets.

Section 4. It shall be the duty of all persons residing within the limits hereinbefore set forth who desire to have garbage or refuse matter removed by the city to place same in suitable receptacles that can be handled by two men, carefully separating all papers, tins, bottles and other materials from ashes, and placing them in separate re-

ceptacles. No garbage or refuse of any kind shall be put into the highway unless placed in receptacles, and all receptacles shall be placed on the outer edge of the sidewalk a reasonable period in advance of the time specified for collections.

Section 5. This ordinance shall take effect upon its passage.

Approved.

A. A. BEATON, *Mayor*.

Passed March 6, 1916.

Report of Committee on Street Lighting Relating to Poles and Wires of Telephone and Other Companies.

To the Mayor and City Council of Franklin:

The Committee on Street Lighting to whom was referred the subject matter, relating to the wires and poles of telephone and other companies, having considered the same herewith file their report and recommend that the same be adopted, to wit:

1. That poles of every kind and description and all overhead wires of telephone or other companies on Central Street, between the Daniell bridge, so called, and the Sanborn bridge, so called, shall be removed on or before July 1st, 1916, and that all wires between said points on Central Street shall hereafter be placed under ground, in accordance with such rules and regulations as shall be prescribed by the highway committee of said Franklin, with adequate provision made for installing by the city of such wires in the future as may be necessary for municipal purposes.

2. That the regulations now in force in said city relative to the erection of square poles by telephone and other companies, as adopted by said city, May 13, 1901, be and the same are hereby revoked as of July 1st, 1916, and that telephone and other companies on and after July 1st, 1916, may erect round, straight and painted poles on any street in said Franklin, other than on Central Street between Daniell bridge, so called, and Sanborn bridge, so called, provided, such poles proposed to be erected and the location of the same, shall first meet with the written approval of the highway committee, said written approval to be filed with the City Clerk of said Franklin.

3. That the maintenance of United States Mail boxes and fire alarm boxes are exempt from the provisions of the regulations hereinbefore set forth.

4. That this report shall be printed annually in the City Reports.

Respectfully submitted,

JOSEPH M. LODREN,

ALVIN C. GILMAN,

P. J. CUNNINGHAM,

Committee on Street Lighting

Approved,

D. E. DAVIS, *Mayor*.

Adopted December 6, 1915.

"DANIELL SCHOLARSHIP."

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the costs of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High school, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and,

Be it further resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further resolved, That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and,

Be it further resolved, That this resolution shall annually be printed in the reports of said city.

Approved.

W. W. EDWARDS, *Mayor*.

Passed June 1, 1914.

VITAL STATISTICS.

VITAL STATISTICS

TO THE CITY COUNCIL OF THE CITY OF FRANKLIN :—In compliance with an Act of the Legislature, passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I hereby submit the following :
